

Pinot Grigio

Marjan Simcic

Josef Simcic started to make wine here in 1860. Five generations later, Marjan Simcic carries on the tradition. His 18 hectares of vineyards straddle the border between Italy and Slovenia. His wines are the result of the hills' many microclimates and calcareous soil, known as Opoka, rich with nurturing minerals.

Description

Golden yellow with copper tinges. The color indicates the method of production, which highlights the intensity and complexity of the aroma (nice flower aromas developing into fruity and spicy notes), full body (the soft, mature and fruity initial taste is substituted by notes of apricots and melons), alcoholic richness with balanced acids, and variety (at the end, slightly bitter)
